

OSHA respirator medical evaluations — online, reviewed by licensed clinicians.

ClearToCare delivers a streamlined, digital-first platform for mandatory employee health screenings, starting with OSHA's respirator medical evaluations. **Clinicians licensed in all 50 states.**

How it works for your organization

- 1

Reach out — we agree on terms and set up quickly.
- 2

Your workforce gets a dedicated evaluation link.
- 3

Staff complete OSHA's medical questionnaire online in minutes; every response is reviewed by a licensed clinician.
- 4

Clearances are delivered automatically to the employee and your compliance contact — with one clean invoice to you.

The old way vs. ClearToCare

OFF-SITE CLINIC	ClearToCare
✗ Half a day away from patients per employee — travel, waiting, paperwork	✓ A few minutes from any device
✗ Appointment scheduling overhead	✓ No appointments — staff complete it anytime
✗ Process varies clinic to clinic across states	✓ One consistent process — clinicians licensed in all 50 states
✗ Results in days	✓ Clearance typically within 24 hours

Built around the OSHA standard

- Questionnaire based on OSHA's mandatory medical evaluation (29 CFR 1910.134 Appendix C).
- Every response reviewed by a licensed clinician (the standard's PLHCP — Physician or Other Licensed Health Care Professional).
- Your compliance file receives the written clearance determination; employees' medical answers stay confidential with the clinician.
